

HUMAN SKELETAL ASYMMETRY

A study of directional and fluctuating asymmetry in assessing health, environmental conditions, and social status in English populations from the 7th to the 19th centuries.

Volume 2 of 2

Rebecca Alyson STORM

submitted for the degree
of Doctor of Philosophy

Division of Archaeological, Geographical and Environmental Sciences

University of Bradford

2009

Table of Contents

<i>Table of Contents</i>	<i>i</i>
<i>Appendices Tables</i>	<i>ii</i>
<i>Appendices Figures</i>	<i>vi</i>
Appendix 1 Cranial Anatomical Landmarks.....	1
Appendix 2 Measurements.....	3
Appendix 3 Recording Forms.....	52
Appendix 4 Population Outliers.....	65
Appendix 5 Measurement Error.....	82
Appendix 6 Directional Asymmetry Descriptive Statistics.....	92
Appendix 7 Results from Directional Asymmetry Comparisons.....	165
Appendix 8 Fluctuating Asymmetry Descriptive Statistics.....	216
Appendix 9 Results from Fluctuating Asymmetry Comparisons.....	280
Appendix 10 Chi Square Tests of Population Outliers.....	342

Appendices Tables

AP 3.1: Recording form for Late Adolescence to Mature Adult.....	53
AP 3.2: Recording form for Childhood to Early Adolescence.....	57
AP 3.3: Recording form for Foetal-Infancy.....	62
AP 4.1: Adult ln(R/L) outliers.....	65
AP 4.2: Subadult ln(R/L) outliers.....	77
AP 4.3: Subadult R-L outliers.....	80
AP 5.1: Intra-observer error for Observer 1.....	82
AP 5.2: Intra-observer error for Observer 2.....	83
AP 5.3: Intra-observer error for Observer 3.....	83
AP 5.4: Intra-observer error for Observer 4.....	84
AP 5.5: Inter-observer Error. TEM of comparison of author's original measurement and Observers' replicates.....	86
AP 5.6: Intra-observer error. Pooled error of asymmetry for Observers 1-4, two-way ANOVA.....	88
AP 5.7: Inter-observer error. Comparison between Observers 1-4 and author for error of asymmetry, two-way ANOVA.....	90
AP 6.1: Directional asymmetry descriptive statistics for adult sex.....	92
AP 6.2: Side dominance expressed as the percentage of individuals within the population grouped by sex.....	95
AP 6.3: Directional asymmetry descriptive statistics for adult and subadults.....	98
AP 6.4: Directional asymmetry descriptive statistics for specific adult age groupings.....	100
AP 6.5: Side dominance expressed as the percentage of individuals within the population grouped by specific adult age categories.....	105
AP 6.6: Directional asymmetry descriptive statistics for specific subadult age groupings.....	108
AP 6.7: Side dominance expressed as the percentage of individuals within the population grouped by specific subadult age categories.....	112

AP 6.8: Directional asymmetry descriptive statistics for adults of specific sites.....	116
AP 6.9: Directional asymmetry descriptive statistics for subadults of specific sites...	135
AP 6.10: Directional asymmetry descriptive statistics for adults categorised by settlement type.....	147
AP 6.11: Directional asymmetry descriptive statistics for subadults categorised by settlement type.....	152
AP 6.12: Directional asymmetry descriptive statistics for adults categorised by period.....	156
AP 6.13: Directional asymmetry descriptive statistics for subadults categorised by period.....	160
AP 7.1: Mann-Whitney- <i>U</i> test results for directional asymmetry comparisons between the sexes.....	165
AP 7.2: Mann Whitney- <i>U</i> test results for directional asymmetry comparisons between the grouping of adults and subadults.....	168
AP 7.3: Directional asymmetry results for adults from Kruskal-Wallis ANOVA tests for age, site, settlement, and period.....	170
AP 7.4: Directional asymmetry results for subadults from Kruskal-Wallis ANOVA tests for age, site, settlement, and period.....	175
AP 7.5: Post-hoc tests for measurements and indices with significant differences between adult age groups' directional asymmetry.....	179
AP 7.6: Post-hoc tests for measurements and indices with significant differences between subadult age groups' directional asymmetry.....	180
AP 7.7: Directional asymmetry post-hoc tests for adults with measurements and indices having significant differences between sites.....	183
AP 7.8: Directional asymmetry post-hoc tests for subadults with measurements and indices having significant differences between sites.....	201
AP 7.9: Directional asymmetry post-hoc tests for adults with measurements and indices having significant differences between settlement types.....	210
AP 7.10: Directional asymmetry post-hoc tests for subadults with measurements and indices having significant differences between settlement types.....	212
AP 7.11: Directional asymmetry post-hoc tests for adults with measurements and indices having significant differences between periods.....	214

AP 7.12: Directional asymmetry post-hoc tests for adults with measurements and indices having significant differences between periods.....	215
AP 8.1: Fluctuating asymmetry descriptive statistics for adult sex.....	216
AP 8.2: Fluctuating asymmetry descriptive statistics for adults and subadults.....	219
AP 8.3: Fluctuating asymmetry descriptive statistics for specific adult age groupings.....	221
AP 8.4: Fluctuating asymmetry descriptive statistics for specific subadult age groupings.....	225
AP 8.5: Fluctuating asymmetry descriptive statistics for adults of specific sites.....	230
AP 8.6: Fluctuating asymmetry descriptive statistics for subadults of specific sites...	249
AP 8.7: Fluctuating asymmetry descriptive statistics for adults categorised by settlement type.....	262
AP 8.8: Fluctuating asymmetry descriptive statistics for subadults categorised by settlement type.....	266
AP 8.9: Fluctuating asymmetry descriptive statistics for adults categorised by period.....	271
AP 8.10: Fluctuating asymmetry descriptive statistics for subadults categorised by period.....	276
AP 9.1: Mann-Whitney- <i>U</i> test results for fluctuating asymmetry comparisons between the sexes.....	280
AP 9.2: Mann Whitney- <i>U</i> test results for fluctuating asymmetry comparisons between the grouping of adults and subadults.....	283
AP 9.3: Fluctuating asymmetry results for adults from Kruskal-Wallis ANOVA tests for age, site, settlement, and period.....	285
AP 9.4: Fluctuating asymmetry results for subadults from Kruskal-Wallis ANOVA tests for age, site, settlement, and period.....	290
AP 9.5: Post-hoc tests for measurements and indices with significant differences between adult age groups' fluctuating asymmetry.....	294
AP 9.6: Post-hoc tests for measurements and indices with significant differences between subadult age groups' fluctuating asymmetry.....	295
AP 9.7: Fluctuating asymmetry post-hoc tests for adults with measurements and indices having significant differences between sites.....	298

AP 9.8: Fluctuating asymmetry post-hoc tests for subadults with measurements and indices having significant differences between sites.....	324
AP 9.9: Fluctuating asymmetry post-hoc tests for adults with measurements and indices having significant differences between settlement types.....	332
AP 9.10: Fluctuating asymmetry post-hoc tests for subadults with measurements and indices having significant differences between settlement types.....	334
AP 9.11: Fluctuating asymmetry post-hoc tests for adults with measurements and indices having significant differences between periods.....	336
AP 9.12: Fluctuating asymmetry post-hoc tests for adults with measurements and indices having significant differences between periods.....	340
AP 10.1: Chi Square comparisons for differences in outliers amongst males and females.....	342
AP 10.2: Chi Square comparisons for differences in outliers amongst age groups.....	342
AP 10.3: Chi Square comparisons for differences in outliers amongst adults from specific sites.....	345
AP 10.4: Chi Square comparisons for differences in outliers amongst subadults from specific sites.....	352
AP 10.5: Chi Square comparisons for differences in outliers amongst adults from specific settlement types.....	357
AP 10.6: Chi Square comparisons for differences in outliers amongst subadults from specific settlement types.....	357
AP 10.7: Chi Square comparisons for differences in outliers amongst adults from specific periods.....	358
AP 10.8: Chi Square comparisons for differences in outliers amongst adults from specific periods.....	358

Appendices Figures

AP 1.1: Craniometric landmarks.....	1
AP 2.1: Orbital breadth.....	3
AP 2.2: Orbital height.....	3
AP 2.3: <i>Nasion-orbitale</i> breadth.....	4
AP 2.4: <i>Frontomalare-nasion</i> length.....	4
AP 2.5: <i>Frontomalare-nasospinale</i> length.....	5
AP 2.6: Zygomatic height.....	5
AP 2.7: Mastoid process length.....	6
AP 2.8: Mastoid process breadth.....	6
AP 2.9: Mastoid process height.....	7
AP 2.10: <i>Mastoidale-asterion</i> length.....	7
AP 2.11: Digastric groove length.....	8
AP 2.12: Occipital condyle length.....	8
AP 2.13: <i>Ectomalare-intermaxillary</i> suture length.....	9
AP 2.14: <i>Opisthion-porion</i> length.....	9
AP 2.15: <i>Basion-porion</i> length.....	10
AP 2.16: <i>Frontomalare-bregma</i> length.....	10
AP 2.17: <i>Bregma-porion</i> length.....	11
AP 2.18: <i>Bregma-zygoorbitale</i> length.....	11
AP 2.19: <i>Nasion-mastoidale</i> length.....	12
AP 2.20: <i>Bregma-asterion</i> length.....	12
AP 2.21: <i>Lambda-frontomalare</i> length.....	13
AP 2.22: <i>Lambda-asterion</i> length.....	13
AP 2.23: Mandibular length.....	14

AP 2.24: Maximum ramus height of the mandible.....	14
AP 2.25: Maximum ramus breadth of the mandible.....	15
AP 2.26: Minimum ramus breadth of the mandible.....	15
AP 2.27: Maximum length of the clavicle.....	16
AP 2.28: Maximum midshaft diameter of the clavicle.....	16
AP 2.29: Minimum midshaft diameter of the clavicle.....	17
AP 2.30: Maximum width of the acromial end of the clavicle.....	17
AP 2.31: Maximum width of the sternal end of the clavicle.....	18
AP 2.32: Maximum depth of the medial curve of the clavicle.....	18
AP 2.33: Maximum depth of the medial curve of the clavicle.....	19
AP 2.34: Glenoid cavity length of the scapula.....	19
AP 2.35: Glenoid cavity breadth of the scapula.....	20
AP 2.36: Maximum length of the acromion of the scapula.....	20
AP 2.37: Maximum length of the coracoid process of the scapula.....	21
AP 2.38: Maximum length of the humerus.....	21
AP 2.39: Maximum midshaft diameter of the humerus.....	22
AP 2.40: Minimum midshaft diameter of the humerus.....	22
AP 2.41: Maximum diameter at the deltoid tuberosity of the humerus.....	23
AP 2.42: Supero-inferior diameter of the humeral head.....	23
AP 2.43: Anterior posterior diameter of the humeral head.....	24
AP 2.44: Epicondylar breadth of the humerus.....	24
AP 2.45: Maximum width of the distal end of the humerus.....	25
AP 2.46: Maximum medio-lateral subadult width of the proximal end of the humerus.....	25
AP 2.47: Greater tubercle length of the humerus.....	26
AP 2.48: Maximum length of the radius.....	26

AP 2.49: Maximum midshaft diameter of the radius.....	27
AP 2.50: Minimum midshaft diameter of the radius.....	27
AP 2.51: Greatest diameter of the radial head.....	28
AP 2.52: Medio-lateral width of the distal end/epiphysis of the radius.....	28
AP 2.53: Medio-lateral subadult width of the distal end of the radius.....	29
AP 2.54: Maximum length of the ulna.....	29
AP 2.55: Physiological length of the ulna.....	30
AP 2.56: Maximum midshaft diameter of the ulna.....	30
AP 2.57: Minimum midshaft diameter of the ulna.....	30
AP 2.58: Height of the radial notch of the ulna.....	31
AP 2.59: Width of the olecranon of the ulna.....	31
AP 2.60: Coronoid height of the ulna.....	32
AP 2.61: Maximum length of the metacarpals.....	32
AP 2.62: Minimum distance from the body to the sacral ala.....	33
AP 2.63: Antero-posterior width of the sacral ala.....	33
AP 2.64: Maximum antero-posterior width of the sacral auricular surface.....	34
AP 2.65: Maximum inferior-superior length of the sacral auricular surface.....	35
AP 2.66: Anterior height of the body of the first sacral vertebra.....	35
AP 2.67: Maximum height of the os coxae/subadult iliac height.....	35
AP 2.68: Iliac breadth.....	36
AP 2.69: Pubis length.....	36
AP 2.70: Ischium length.....	37
AP 2.71: Acetabular height.....	37
AP 2.72: Auricular surface height of the <i>os coxae</i>	38
AP 2.73: Auricular surface breadth of the <i>os coxae</i>	38

AP 2.74: Maximum length of the femur.....	39
AP 2.75: Maximum diameter at midshaft of the femur.....	39
AP 2.76: Minimum diameter at midshaft of the femur.....	40
AP 2.77: Maximum subtrochanteric diameter of the femur.....	40
AP 2.78: Minimum subtrochanteric diameter of the femur.....	41
AP 2.79: Epicondylar breadth of the femur.....	41
AP 2.80: Maximum width of the lateral epicondyle of the femur.....	42
AP 2.81: Medio-lateral subadult width of the distal end of the femur.....	42
AP 2.82: Maximum antero-posterior femoral head diameter.....	43
AP 2.83: Maximum supero-inferior femoral head diameter.....	43
AP 2.84: Maximum width of the proximal end of the femur.....	44
AP 2.85: Maximum length of the tibia.....	44
AP 2.86: Maximum diameter at the nutrient foramen on the tibial shaft.....	45
AP 2.87: Minimum diameter at the nutrient foramen on the tibial shaft.....	45
AP 2.88: Maximum medio-lateral width of the proximal end/epiphysis of the tibia.....	46
AP 2.89: Maximum medio-lateral subadult width of the proximal end of the tibia.....	46
AP 2.90: Antero-posterior diameter of the medial condyle of the tibia.....	47
AP 2.91: Antero-posterior diameter of the lateral condyle of the tibia.....	47
AP 2.92: Maximum length of the calcaneus.....	48
AP 2.93: Maximum breadth of the calcaneus.....	48
AP 2.94: Maximum height of the calcaneus.....	49
AP 2.95: Maximum length of the talus.....	49
AP 2.96: Maximum breadth of the talus.....	50
AP 2.97: Maximum height of the talus.....	50
AP 2.98: Maximum length of the metatarsals.....	51
