Abstract	I
Acknowledgements	II
Contents List	IV
List of Figures	X
List of Tables	XX
Chapter 1: Introduction	1
1.1 Origins and Justification.....	1
1.2 Biometrical Evidence in the North Atlantic.....	2
1.3 Aim and Objectives	4
1.4 Project Outcomes	5
1.5 Outline of Thesis	6
Chapter 2: Past Uses of Biometry in Archaeology	8
2.1 Introduction	8
2.2 Genetic Issues	9
2.3 Economic Issues	18
2.4 Environmental Issues	26
2.5 Summary	28
Chapter 3: Why do Domestic Mammals Change in Size and Shape?	30
3.1 Introduction	30
3.2 Sexual Dimorphism	31
3.2.1 Evolutionary Significance	31
3.2.2 Broad Trends in Sexual Dimorphism of Polygamous Mammals	32

3.2.3 Patterns of Sexual Dimorphism in Individual Elements	33
Horncores	33
Skull	34
Mandibles and Teeth	34
Atlas and Axis	35
Scapula	35
Humerus	36
Radius (and ulna)	36
Pelvis	37
Femur	38
Tibia	38
Astragalus and Calcaneum	39
Metacarpals and Metatarsals	39
Phalanges	41
3.2.4 Summary and problems in identifying sexual dimorphism	42
3.3 Breeding	44
3.3.1 What is a breed and how do you make one?	45
3.3.2 A brief history of livestock breeds in Britain and the North Atlantic... ..	48
3.3.3 What do different breeds look like and why?	52
3.4 Biogeographical Factors	58
3.4.1 Allan's Rule	58
3.4.2 Bergman's Rule	59
3.4.3 Guthrie's or Geist's Rule	59
3.4.4 Island Dwarfism	61

3.4.5 Summary of biogeographical effects	63
3.5 Nutrition	64
3.5.1 Nutrition and Overall Growth	65
3.5.2 Differential effects of poor nutrition on the skeleton	66
3.5.3 Effects of poor nutrition on bone shape	67
3.5.4 Timing of poor nutrition	69
3.5.5 Summary and further considerations	70
3.6 Castration	71
3.7 Provision of Shelter	76
3.8 Summary	77
Chapter 4: Archaeological, geographical and climatological background to the North Atlantic	80
4.1 Introduction	80
4.2 The Western Isles	81
4.2.1 Climate, geology and vegetation	83
4.2.2 Settlement and economy	87
Mesolithic	87
Neolithic	88
Bronze Age	90
Iron Age	91
Norse Period	94
4.3 The Northern Isles	96
4.3.1 Climate, geology and vegetation	97
4.3.2 Settlement and economy	104

Mesolithic	104
Neolithic	106
Bronze Age	108
Iron Age	109
Norse Period	114
4.4 Continuity and Change in the Western and Northern Isles	118
4.5 The Faroe Islands	121
4.5.1 Geology, Climate and Vegetation	121
4.5.2 First Settlers	125
4.5.3 Resources and Economy	127
4.5.4 Land Management and Vegetation Change	130
4.6 Iceland	136
4.6.1 Geology, Climate and Vegetation	136
4.6.2 First Settlers	141
4.6.3 Resources and Economy	143
4.6.4 Land Management and Vegetation Change	149
4.7 Greenland	154
4.7.1 Climate, Geography and Geology	154
4.7.2 First Settlers	157
4.7.3 Resources and economy	158
4.7.4 Settlement demise	161
4.8 Hypotheses	163
Chapter 5: Materials and Methods	167
5.1 Introduction	167

5.2 Sites	167
5.2.1 Selection Criteria	167
5.2.2 Sites selected and periods covered	168
Western Isles	177
Northern Isles – Orkney	179
Northern Isles – Shetland	185
Faroe Islands	188
Iceland	189
Greenland	191
5.3 Data Collection	195
5.3.1 Measurements taken by the author	195
5.3.2 Measurements taken by others	198
5.3.3 Limitations and problems encountered during data collection	199
5.4 Data Processing	201
5.5 Limitations of the Data	207
5.6 Summary	208
Chapter 6: Results and Discussion	209
6.1 Introduction	209
6.2 Latitude Hypothesis	211
6.2.1 Results for latitude hypothesis	211
6.2.2 Discussion of latitude hypothesis	220
6.3 Status Hypothesis	222
6.3.1 Results for status hypothesis	223
Western Isles	223

Iceland	227
Greenland	228
6.3.2 Discussion of status hypothesis	243
6.4 Agricultural Intensification Hypothesis	248
6.4.1 Results for agricultural intensification hypothesis	249
Sollas	249
Dun Vulcan	255
Udal	258
Howe	265
Old Scatness	274
6.4.2 Discussion of agricultural intensification hypothesis	280
6.5 Land Degradation Hypothesis	282
6.5.1 Results for land degradation hypothesis	284
Greenland	284
Iceland	392
6.5.2 Discussion of land degradation hypothesis	295
6.6 Summary Discussion	297
Chapter 7: Conclusions and future work	301
7.1 Conclusions	301
7.2 Future Work	303
References	307
Appendix 1: Bone Measurement Database CD	356
Appendix 2: Summary Statistics for Sheep	357
Appendix 3: Results of t-tests	374
